## Alumni News

JANUARY 1974

### *The Angell Years*

# PRESIDENT ANGELL TO RETIRE

President Angell has announced that he will retire from the presidency of Plattsburgh State, effective August 31 of this year.

Dr. Angell's announcement comes about four weeks prior to the 20th anniversary date of the start of his administration at Plattsburgh State. Dean among presidents within the 72-campus State University of New York system, Dr. Angell assumed office February 1, 1954. His professional career in education spans four decades.

Although he is retiring from the presidency at Plattsburgh, Dr. Angell, who will be 62 in June, will remain active in the field of education. On September 1, he will become a University Professor at the State University of New York at Albany. A "University Professor" is so designated because he will have university-wide responsibilities as defined by the Chancellor.

In addition to some teaching duties at the Albany campus, President Angell will be assisting the University in certain studies of University-wide importance, such as collegiality and collective negotiations, management information systems in higher education, institutional decisions and adaptation to change, and alternatives to tenure.

Commenting on his retirement plans, Dr. Angell said:

"Eight months of service to this College are still ahead for me, so it is difficult to imagine what it's going to be like being separated from this scene of enlightened activity. One doesn't spend a third of his life in a wonderful community like Plattsburgh, then walk away light-hearted.

"However," he added, "we are entering a new era of higher education in America and the College in Plattsburgh needs new, vigorous leadership with fresh ideas and abundant energy."

Selection of a successor to President Angell will be made by the University's Trustees on the recommendation of the Plattsburgh College Council, and the local Council is hopeful that the institution's next president will be chosen in time to take office by September 1 of next year. The first step in the search procedure will be formation of a committee representing the various College constituencies, including alumni, which will screen candidates and endorse one or more for formal council action. The College-wide search committee will begin its work early next month.

When Dr. Angell joined the college at Plattsburgh, the campus consisted of two buildings with a third under construction. The academic program featured but three major disciplines; the College's undergraduate population was about 600; and the faculty numbered about 75.

It became President Angell's responsibility to develop, and to spearhead implementation of, long-range plans which would eventually double, then triple and then multiply the size of the College ten-fold. Plattsburgh State today is a modern \$60-million campus having 36 permanent buildings, with a teaching faculty of 299 offering study opportunities in some 50 academic specializations for an enrollment exceeding 4,500 students.

Growth itself created major problems for the College during the past two decades, particularly in the 60's, but the principal challenge for the Angell administration was to oversee the transition of Plattsburgh from a teachers college to a multipurpose college of arts and science.

Top priority was assigned to attracting and maintaining quality faculty and students; the base upon which the College would develop, as Dr. Angell declared, as a "center of aca-

demic excellence, innovation and responsiveness to public need".

Predominant objectives during the Angell years have included, among others; strengthening the institution's capacity for self-governance; improvement of scholarship among students and faculty; development of an enduring College-community relationship via continuing education programs and faculty-staff-student involvement in civic affairs and social welfare activities; encouragement and enhancement of campus cultural events; evolution of assistance programs to benefit financially disadvantaged students; expansion of services for alumni; and diversity in programs, with emphasis on student need and career opportunities.

From the standpoint of management, the Angell years have been characterized by a commitment to continuing institutional self-evaluation; to fiscal responsibility; to sound program planning; and to efficient and effective utilization of resources.

In terms of President Angell's personal philosophy on education, his writings and public statements — notably consistent through the years — provide insight in respect to his concept of the nature and purpose of the modern institution of higher education.

Words such as challenge, flexibility, imagination, peace, confidence, justice and opportunity are common to his texts, both published and unpublished. Today, as in 1954, he still talks of the need for intellectual independence; the need to foster ethical values; the need to understand differences among people; the need for the individual student to accept more responsibility for his own education; and the need to develop useful skills among youth in addition to promulgating knowledge and understanding.

Dr. Angell holds the bachelor of science and master of arts degrees from Ohio State University; and the Doctor of Philosophy and honorary Doctor of Letters Degrees from Syracuse University.

Dr. Angell was the first State University president ever granted a nine-month sabbatic leave by the University Board of Trustees — and he spent that leave as scholar-in-residence at Cornell University during the 1970-71 academic year. His leave activities included course work in labor law, the bargaining process and dispute settlement at Cornell, followed by a detailed study for the Public Employment Relations Board of the bargaining process at community colleges in New York State.

Before joining Plattsburgh, Dr. Angell was dean — and, later, acting president — at New Paltz State Teachers College. He has served as a consultant to the American Council on Education in Washington, D.C.; as chairman of higher education at Michigan State University; as director of the Evaluation Service Center at Syracuse University; and as vice principal and supervising principal of the Earlville Central School in Earlville, New York.

Dr. Angell has been honored by election to several learned societies including Phi Delta Kappa, Phi Eta Sigma and Phi Mu Epsilon. In 1966 he was honored as Citizen of the Year by the Joel Lodge of B'nai B'rith in Plattsburgh. Two years later he was recognized by the Plattsburgh Rotary Club, which named him "Rotarian of the Year".

The Plattsburgh President has served on numerous state, national and international boards and committees. During his tenure, Dr. Angell has served as Director and Chairman of the Board of the New York State Council on Economic Education, a member of the Committee on Higher Education of the New York State Teachers Association, a member of the American Council on Education's Commission on International Education and its Committee on Intercultural Education, Education and World Affairs, a member of the Plattsburgh advisory board of the National Commercial Bank and Trust Company, a Director of the Champlain Valley/Physicians' Hospital Medical Center of Plattsburgh, Honorary President of the Economic Education Council of Northern New York and a member and Chairman of the Committee on International Education of the American Association of State Colleges and Universities.

For ten years Dr. Angell served as a member of the New York State Regents Examination Board. During that time, he worked diligently to substitute comprehensive examinations in place of detailed course-by-course examinations in the state's high schools. Additionally, he attempted to replace strictly memory-type exam questions with problem-solving questions which he felt were far more beneficial, as he stated, "for students learning to live in a free society".

In recent years the Plattsburgh president has published a

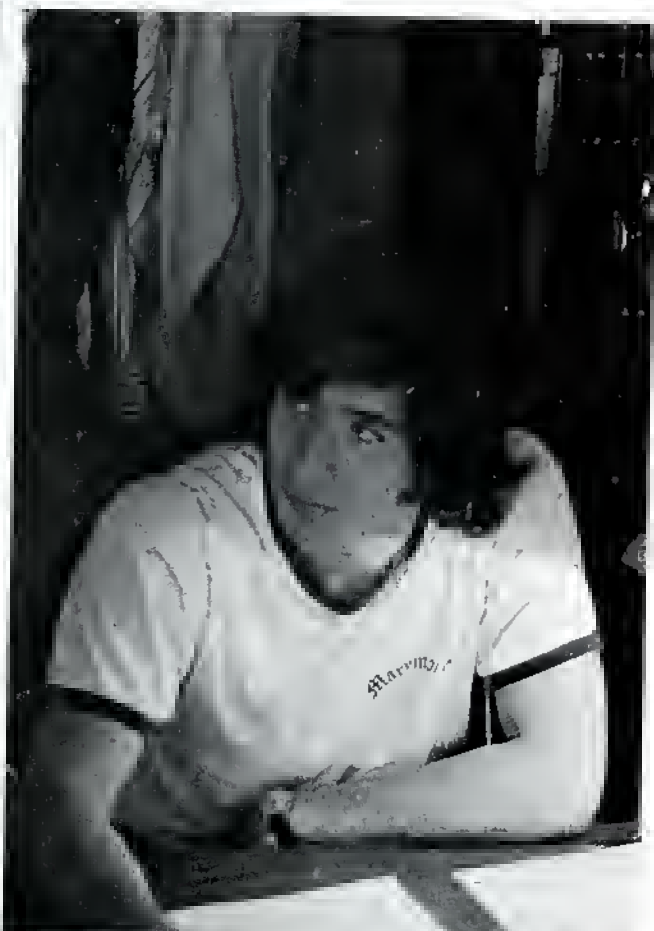

number of articles in professional journals and has addressed regional and national audiences in the field of labor relations in higher education.

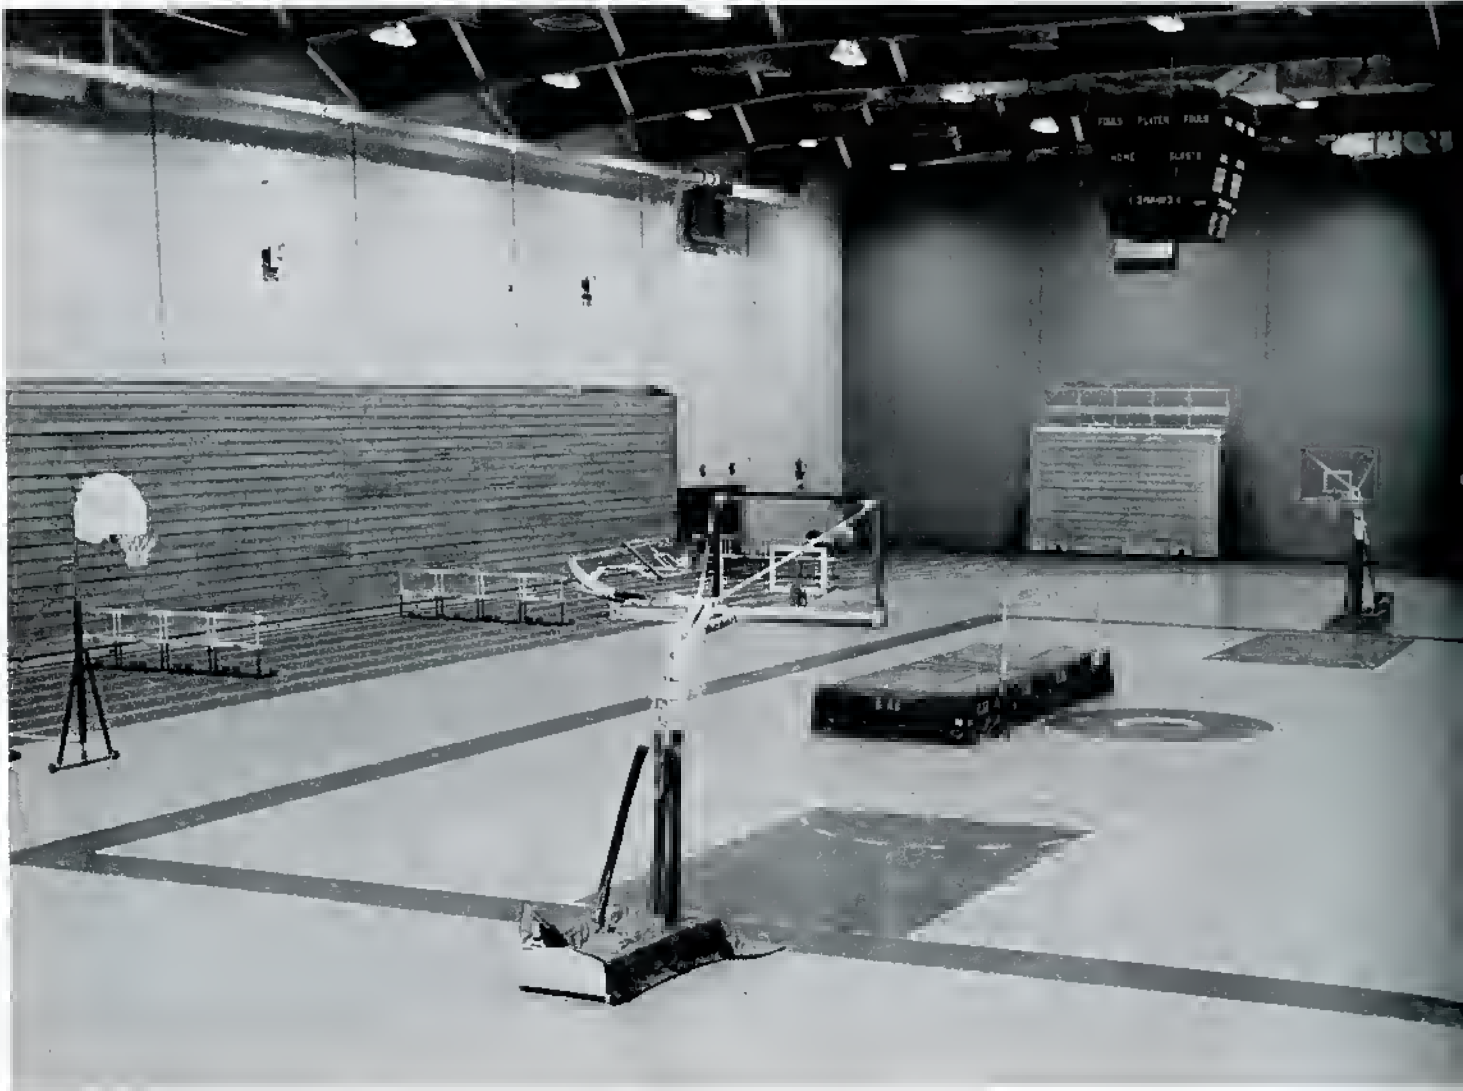

A past director of the Plattsburgh and Clinton County Chamber of Commerce, Dr. Angell is currently an ex-officio member of the Board of Directors of that organization. He is a former Director of the Clinton County Heart Fund, a member and Past Director of the Clinton County United Fund, and a Past President and honorary life member of Rotary International.

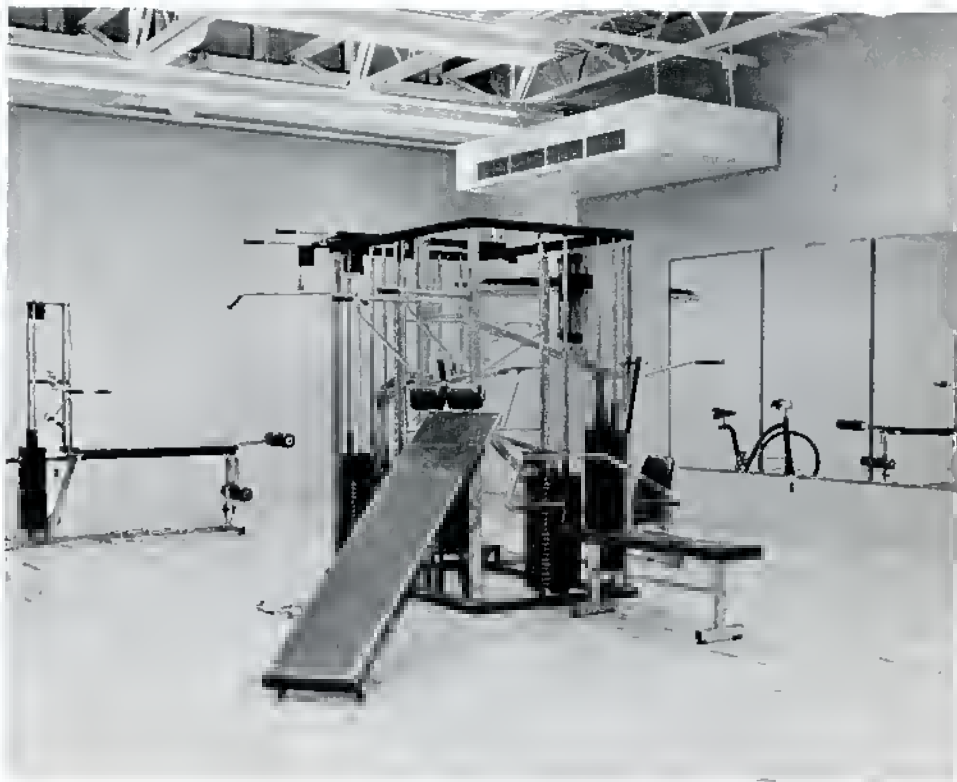

Dr. and Mrs. Angell are the parents of two daughters and one son, all of whom are married.
